

# Time list w/status report

Team no.: 25

NTNU

Per session(min)						
Date	Andreas	Benjamin	Markus	Daniel	Julie	Notes
25.02.21	180	180	180	180	180	Started on the Collaboration Agreement, made an overview of everything that needed to be done
26.02.21	90	90	90	90	90	Completed Collaboration Agreement and created a GitLab project
01.03.21	180	180	180	180	180	Started planning our to-do application, vision document
04.03.21	140	140	140	140	0	Orientation with TA, Continued work on Visual document.
05.03.21	240	240	405	240	210	Completed a draft of First Iteration of the Vision Document (incl. Domain Model and Wireframe).
06.03.21	30	45	0	70	0	User testing.
07.03.21	120	30	105	120	160	Completed First Iteration of Vision Document
17.03.21	80	80	80	80	80	Preparation for meeting with client
24.03.21	80	80	80	80	60	Tested FXUI.
28.03.2021	90	0	90	0	0	Continued testing FXUI and set up issue board to get an overview/delegate tasks.
01.04.21	420	60	420	400	90	Tested SQLite ORM library, worked on FTXUI library, created a basic side menu
05.04.21	0	45	0	0	0	Created SQL schema and started on the implementation
06.04.21	0	60	0	200	0	Continued work on SQL schema implementation. Worked on FTXUI library, made some tweaks on the basic side menu.
07.04.21	300	210	250	200	120	"Completed" SQL schema implementation and did work on bridging data between the database and the UI, implemented

						correct menu choices with examples
08.04.21	300	360	90	180	200	Continued work on bridging database and UI data and states, put every class in their own header files fixed includes. Further work on coding.
09.04.21	360	310	360	345	160	Refactored the menu component classes to all derive from a base class. Implemented the ability to delete and add tasks (from code). Implemented the ability to add tasks from the UI, implemented button functionality and unixTime
10.04.21	300	300	180	160	180	Worked on code for adding tasks and then rebuilding data cache. Gantt Chart. Vision document tweaking. Sequence Diagram
11.04.21	420	150	420	480	330	Finished work on code for second iteration. Completed work on sequence diagram. User Testing. User Case Diagram. Wiki
12.04.21	120	320	320	120	120	Applied changes to application based on feedback from user testing.
19.04.21	210	210	300	210	210	Meeting about second iteration feedback. Working on second iteration feedback and planning
21.04.21	300	300	380	240	340	Continuing work on second iteration feedback
22.04.21	380	380	380	380	380	Planned client meeting, discussed future planning, and visualized further implementation of code.
24.04.21	240	270	300	250	290	Started implementing input boxes for all editable components, finish work on feedback.
25.04.21	180	360	0	280	360	Finished input boxes and implemented sorting, output window for error outputs, start-up for Main Report and Process Documentation

26.04.21	0	300	0	160	340	Started work on task deletion and general clean-up
27.04.21	0	330	0	160	560	Continued work on task deletion, refactoring and error checking
28.04.21	540	540	0	520	520	Continued work on Main-report and Process Documentation
29.04.21	600	600	0	600	600	Finished work on main-report, process documentation,
30.04.21	300	360	300	300	300	Finishing touches to the final delivery.
<b>Total Hours</b>	103.33	108.83	84.17	106.08	100
